

Who We Are?

Description

OUR VISION

We are building a business ecosystem in order to contribute to the creation of the world of meaningful work in which knowledge and performance matter.

We want to live and raise our children in a world and country, where not only a few companies are committed to social issues, but that is the norm for leadership.

WHERE LEADERS HAVE A CONSCIOUS LONG-TERM STRATEGY OF WHAT THEY LEAVE BEHIND.

We believe that this country could be a better place. Which it is not worth leaving behind or where it is worth coming home to.

We are a non-profit organization, the honorary president of the Bridge Budapest Association is Péter Árvai, co-founder of Prezi and chairman of the board.

Bridge Fund

The members of Bridge Fund are entrepreneurs with great success stories related to Hungary; who are proud of what they have achieved and who believe that sharing their experience could inspire the country. Becoming a member of Bridge Fund is only possible through invitation. Apart from organizational and operational contributions, they also provide financial support for Bridge Budapest.

We believe that entrepreneurs do the most in their environment if they create good workplaces. The more aware they are, the more perspective they have, the more open they are then Hungary will be more successful. We need more evidence to prove it is possible to build authentic stories. Success needs a group of committed entrepreneurs where members contribute to this process significantly by sharing their stories, knowledge and experience and also would like to join the well-known founders. This is why we established Bridge Fund.
