Description

HELLO. WE ARE BRIDGE BUDAPEST!

OUR MISSION IS TO SHAPE THE DOMESTIC BUSINESS CULTURE

We are building a movement of value-based and long-term-minded business actors to contribute to the creation of the world of meaningful work where knowledge and performance matter. Where not only a few companies are committed to social issues, but that is the base of leadership, and where leaders have a conscious, long-term strategy for what they would leave behind.

We are doing all this for a more competitive and lovable business future and country which it is not worth leaving or where it is worth coming home to.

OUR PROJECTS

CONSCIOUSBUSINESSCULTURE

The Initiative for Conscious Business Culture is a growing community of conscious entrepreneurs in Hungary. It was designed to give an opportunity to the them to reflect on their own operation, how are they acting regarding integrity, transparency and conscious business behaviour.

EDISONPLATFORM

Edisonplatform is a thought-forming community initiated by business decision-makers that brings together and encourages children-developing, innovative and knowledge-based actors.
